

# Work - Session 5

## Task 5.1

Design homepage for national voters' services system. Design it as shown in the below image.  
Please select an appropriate background image for the website

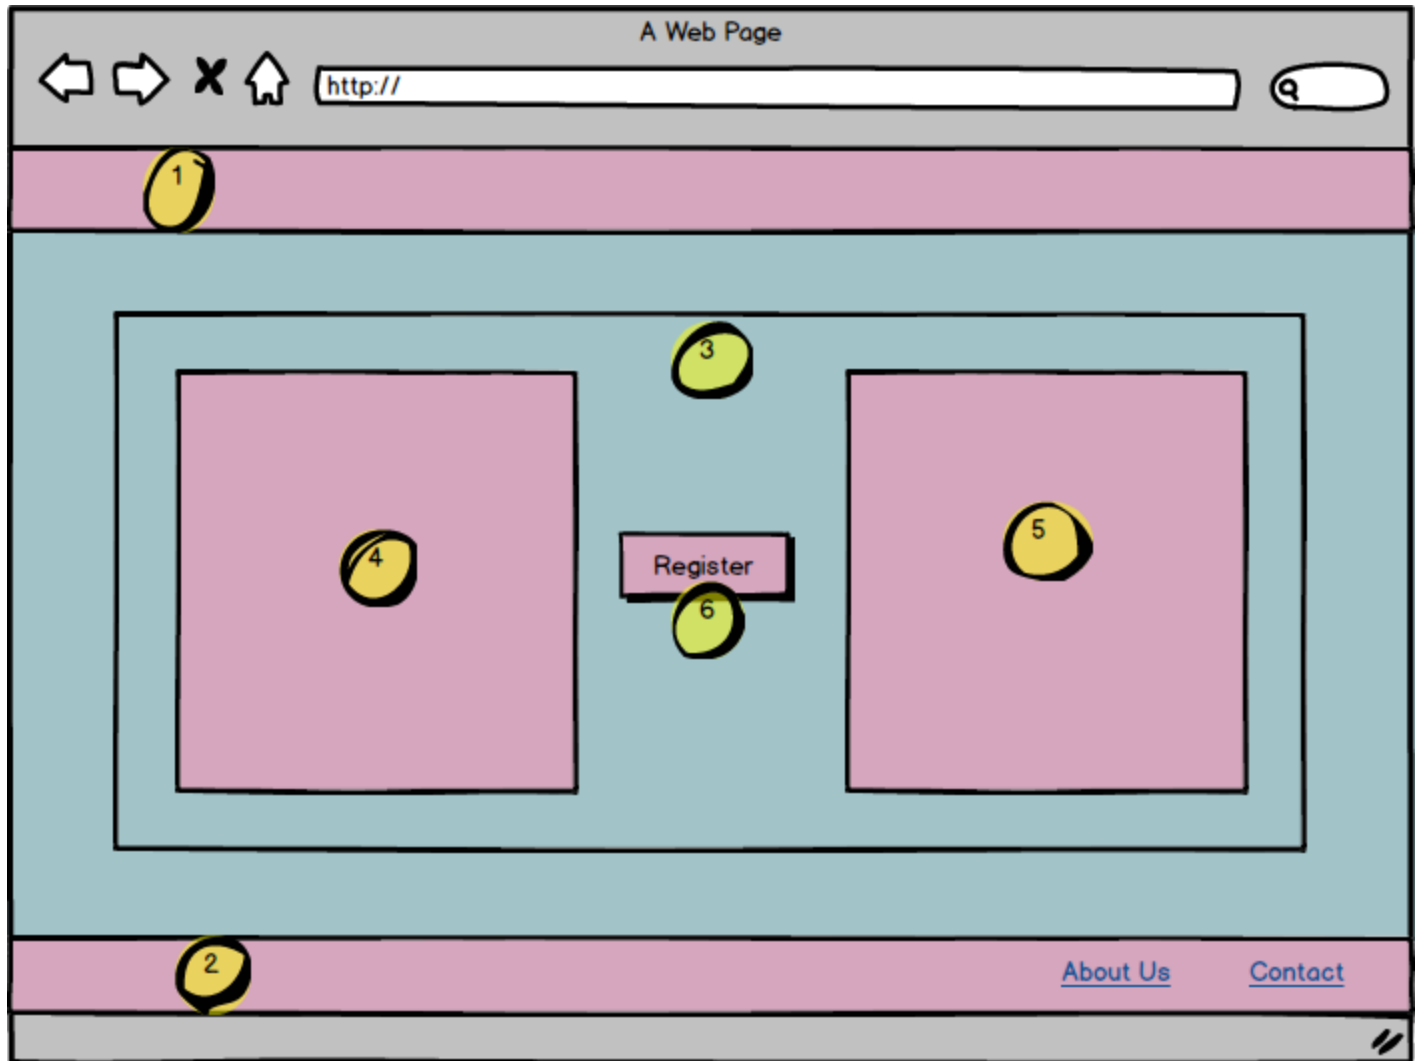

## Task 5.2

There is a new restaurant opening at Hyderabad. It has a website to show the list of the menu

items available.

Design the home page of the website. The design should be as shown in the image.

- **[1]** - Header (It should show the hotel name in the middle)
- **[2]** - Footer (It should show the links as shown in the image)
- **[3]** - Main container of the website.
- **[4]** - It should have the image of the hotel.
- **[5]** - It should have the list of food items available in the hotel.
- **[6]** - This is a button to register. To use the services of the hotel (make an order for door delivery) the customer has to register with his details.

## NOTES:

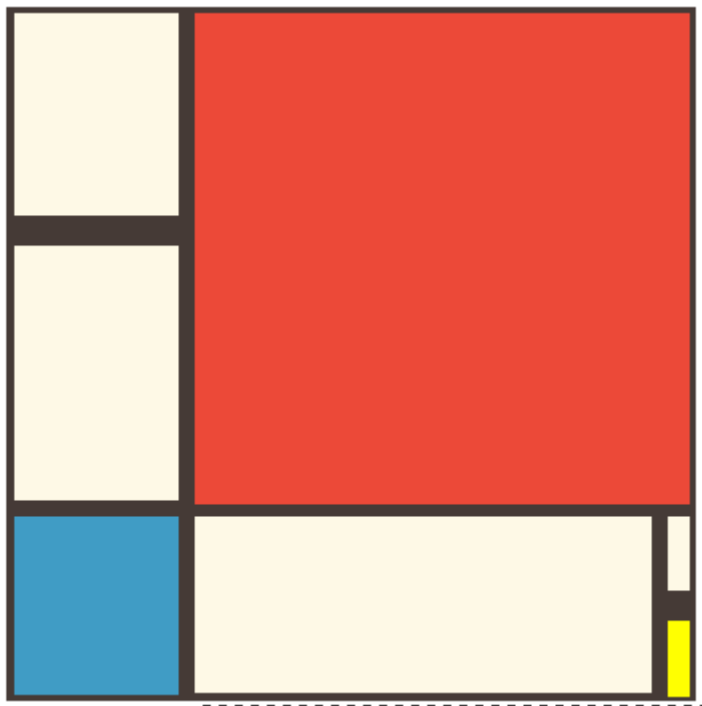

1. The sections 4, 5 should be of same height and width.
2. Header should be fixed to the position top.
3. Footer should be fixed to the position bottom.
4. The Register button should be positioned exactly to the center of the main container.

5. Use the same colors as shown in the image.
6. Use white color for the font.

## Task 5.3

Design the layout as shown in the below image. Use the same colors and give margins and widths in %.

Use float left and right to align the containers.
